

Zistos' Video Monocle provides a completely covert means of viewing images obtained from any Zistos WalkAbout™ pole camera system.

Video Monocle Uses:

- Provides covert means of viewing images from Zistos portable video systems
- Ideal for tactical missions where stealth is essential to maintain visual dominance
- Lightweight monocle affixes to identical helmet mounting bracket used for PVS-14 night vision monocle
- Night vision monocular can still be used as a stand alone optical device held directly to eye when removed from the adapter bracket

VIDEO MONOCLE on HELMET MOUNT

Video Monocle Features:

- Large, vivid color images with no distortion or color aberrations
- Image equivalent to a 16-inch screen at a distance of 1 meter
- Form fitting eyecup keeps any light from escaping to maintain covert status
- Seamlessly integrates into any Zistos portable WalkAbout™ video system
- Completely interchangeable with alternative body-worn detachable WalkAbout display
- Stand-alone video monocle (part # "VM")
- Replace "WA-" or "WS-" prefix with "VV-" to substitute video monocle for WalkAbout™ display on any complete system
