# ARTICULATING EXTENSION POLES

**Zistos Articulating Extension Poles are rugged, lightweight and portable. Each pole is specifically optimized for its intended application.**

**Features and Benefits:**

- 180° of camera head articulation via twist grip
- Jam-free mechanical cable design for maximum reliability
- Position indicator and mechanical detents offer camera angle feedback
- 90° camera rotation allows for either vertical or horizontal panning
- Compatible with all Zistos cameras and displays through *VisionFlex™*
- Quick disconnect from WalkAbout™ or other display
- Submersible, waterproof and oil resistant (excluding handle)

NAME DESCRIPTION	MODEL NO.	KEY FEATURES	EXTENDED REACH	COLLAPSED & FOLDED LENGTH	ACCOMODATING CASES
<b>A</b> 3-Foot Articulating Pole	AP-F3	Fixed length 3-foot reach for confined space situations that require articulation	3 feet	3 feet	N
