VIDEOSCOPES

Zistos' Videoscopes offer superior image quality and ease of operation in a robust design that is compatible with any WalkAbout™ component or system.

Videoscope Features:

- Available as a complete WalkAbout™ System or Kit only
- Choice of black/white or color camera on all systems and kits
- High resolution camera for superb image quality far beyond that of fiberscopes
 - 1/6" Super-HAD CCD (380,000 pixels)
- Four-way tip articulation for one handed operation
 - 160° up; 130° down; 100° left/right
- Range of lengths from 1.5M (standard) up to 15 meters (4.9 to 49.2 feet)
 - Articulation only available up to 6 meter length
- Tungsten braid sheathing for durability and flexibility
 - non conductive sheathing available
- Fluid resistant from remote tip to handpiece

Videoscope Kit/System Features:

- Compatible with all WalkAbout™ monitors, systems and accessories
- Telescoping guide tube (1.5 meters extended length) allows fiberscope to span voids
- Interchangeable battery powered light sources – standard is white (model # FBL)

Videoscope Kit/System Options:

- Optional 24W metal halide AC-powered table top light source (model # FBL-MH)
- Optional blue battery-powered light source (model # FBL-BL)
